Paint Technician Assistant Lead

Description

The Paint Tech Assistant Lead is selected by the Operations Manager and Assistant Operations Manager with the help of the Area/Line Lead and Paint Lead. This position reports to the Paint Lead of the area assigned. The paint technician assistant lead will have the following:

- Two or more years' experience operating powder coat paint equipment or three years' experience in manufacturing serving in a production role with upward job progression.

AUTHORITY

The Paint Tech Assistant Lead has the authority to:

1. Develop and implement, in cooperation with the current area Paint Lead, Area/Line Lead, and Operations Manager, normal operating procedures for the powder coating application areas which he/she assigned.

RESPONSIBILITY

Learn all attributes and working conditions of processes including equipment and personnel of the assigned area. Through experience and training with the Paint Lead, learn how to effectively process parts, problem solve issues and maintain equipment. Become a leader to all Paint Technicians by setting a positive example for others to follow.

When the current area Paint Lead is absent or unavailable, the Paint Tech Assistant Lead has the responsibility for processing customer product in the powder coating application areas according to verified processes. This includes:

1. Being responsible for quality control in the powder coating application areas.
2. Being responsible for managing and directing powder coating application.
3. Performing job in a safe, responsible manner.

TYPICAL WORKING CONDITIONS

The typical working conditions are a light industrial job shop. Conditions include exposure to industrial equipment, chemicals, loud noises, and warm/cold temperatures.

TYPICAL PHYSICAL DEMANDS

Requires full range of body motion including handling and lifting of production loads, frequently lifting and carrying items weighing up to 60 pounds, often above the shoulders or below the knees. Requires manual/finger dexterity and eye-hand coordination. Requires ability to wear eye, respiratory, and hearing PPE's effectively through entire work shift. Requires corrected vision and hearing to normal range.
