## Senior Process Operator – Paint

### Description

A Senior Process Operator position will be selected by the Operations Manager in cooperation with the Human Resource Coordinator. This position reports to their shift supervisor.

A Senior Process Operator must complete the following:

1. One year or more operating powder coat paint equipment or supporting powder coat paint operations or two years experience in manufacturing serving in a production role with upward job progression.

### RESPONSIBILITY

All Senior Process Operator positions have the responsibility of completing work assigned with the Quality Control Standards outlined by management. This includes:

1. Leading by example and showing others that consistent work ethic pays off.
2. Processing of parts (hanging and packing) thru powder coat paint operations
3. Accurately completing all paperwork/computer entries concerning assigned jobs.
4. Following all policies set by KVF-Quad Corporation including Health and Safety Programs.

### TYPICAL WORKING CONDITIONS

The typical working conditions are a light industrial job shop. Conditions include exposure to industrial equipment, chemicals, loud noises, and warm/cold temperatures.

### TYPICAL PHYSICAL DEMANDS

Requires full range of body motion including handling and lifting of production loads, frequently lifting and carrying items weighing up to 100 pounds – above the shoulders and below the knees. Also requires tolerance for bending, twisting, standing, pushing, and pulling. Job requires manual/finger dexterity and eye-hand coordination. Requires corrected vision and hearing to normal range.

### KNOWLEDGE, SKILLS, & ABILITIES

Skill in following oral and written instructions. Ability to perform unskilled and semiskilled tasks in a variety of powder coat paint processes. Ability to perform medium to heavy physical labor. Ability to read job sheets and do basic mathematical problems accurately. Ability to count large quantities of parts and make accurate inputs in the computer system. The ability to understand the safe usage and storage of chemicals. The ability to establish and maintain cooperative relationships with those contacted in the course of work.
